TECHNICAL EXPERIENCE

QA/RESEARCH SPECIALIST

OCT 2025 – MAR 2026

University of Caloocan City | Metro Manila, Philippines | React | Expo | Firebase | Gemini | Gemini 2.0 | Github | TypeScript | Blender

- I worked as a **QA/Research Specialist** in a **7-member development team**, supporting **project research, documentation, testing activities**, and **workflow organization**.
- Conducted research**, gathered **user requirements**, and assisted in identifying issues to improve **system usability** and overall **project efficiency**.
- Collaborated with **developers** and **IoT Engineer** to review features, organize findings, and support **quality improvements** throughout the development process.
- Assisted in **maintaining documentation**, tracking project updates, and ensuring **smooth coordination** among team members during development.

WEB DEVELOPER | FULL STACK DEVELOPER INTERN

JUN 2025 – SEPT 2025

National Food Authority | Quezon City, Metro Manila
| Laravel | Vue | MySQL | Tailwind CSS | Github

- Developed** and **implemented** a **Document Tracking System (DTS)** to improve document monitoring, workflow management, and internal process efficiency using **Laravel, Vue.js, MySQL**, and **Tailwind CSS**.
- Designed, developed**, and maintained frontend and backend system functionalities, including **document status tracking, user authentication, data management**, and **workflow-related features**.
- Collaborated** with a development team in **analyzing system requirements**, implementing new features, resolving bugs, and improving overall **application performance** and **usability**.
- Participated in **weekly progress reporting, sprint discussions**, and **technical meetings** to provide project updates, resolve development issues, and ensure **timely task completion**.
- Utilized **GitHub** for version control, code collaboration, branch management, and tracking development progress throughout the **software development lifecycle (SDLC)**.
- Implemented CRUD operations**, database queries, and data validation processes to maintain accurate, organized, and reliable system data within **MySQL databases**.
- Created** and **maintained technical documentation**, workflow references, and development reports to support **system maintenance, knowledge transfer**, and **project continuity**.

FRONTEND MOBILE DEVELOPER

JAN 2025 – APR 2025

University of Caloocan City | Metro Manila, Philippines
| Flutter | C++ | Figma | API | Github Copilot

- I was a **Frontend Developer** in a **6-member development team**, helping develop and improve the **mobile application interface** using **Flutter** and **Firebase**.
- Assisted in creating responsive screens**, navigation flows, and user interface components for application features and user interactions.
- Implemented Dark Mode support** and helped maintain a **consistent** and **user-friendly design** across different app screens.

SKILL

- Frontend:** Flutter, Vue.js, React, Tailwind CSS, TypeScript, Responsive UI Design.
- Backend:** Laravel (PHP), Node.js, Python, MySQL, Firebase.
- Tools & Platforms:** GitHub, Docker, Figma, Expo, Vercel.
- Core Competencies:** Full-Stack Web Development, Mobile App Development (iOS/Android), RESTful APIs, SDLC, QA Testing, UI/UX Design.

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER SCIENCE

2022 – 2026

University of Caloocan City | Metro Manila, Philippines
